Low Energy Operators

HA7

HA8-LP

HA8-SP

HA9

SS8200

The Record brand has been taking doors from manual to automatic in North America for over 20 years with its line of low energy swing door operators that are competitively priced, durable, low maintenance and simple to install.

All Record swing operators feature electromechanical design for simple, dependable operation, easy manual door opening, trouble-free installation and ADA compliance, and meet ANSI/BHMA 156.19 standards and are UL10C approved.

Swing operators are perfect for retrofit or new-build applications in moderate- to high-traffic locations. Whether you need a simple, dependable operator for a touchless restroom or an operator built to withstand the abuse of university students, Record has something to meet every application.

Standard Features

Activation Devices

All Record low energy operators are compatible with a variety of activation devices.

- ✕ Wave plates for a touchless experience
- ✕ Push plates
- ✕ Handheld transmitters

Record HA7

Slim, Full-featured
Operator for
Interior Doors

Aesthetics and innovation combine in the Record HA7. The slim header blends seamlessly with most standard door frames and fits into areas where standard operators can't. Its quick installation and mobile app setup make it an ideal choice for offices, restrooms and assisted living facilities.

Key Features

- ✕ Non-handed
- ✕ Electrician not required with option of simply plugging into a standard 120vac wall outlet
- ✕ Power Assist
- ✕ Push and Go
- ✕ Parking (multiple-point hold open)
- ✕ Privacy Function (patent pending)
- ✕ Ratchet Function
- ✕ Electric-strike Integration (no external relays required)
- ✕ UL325/UL10C certified
- ✕ For use on single interior doors
- ✕ Available in push or pull, clear or dark bronze

Record HA8-LP

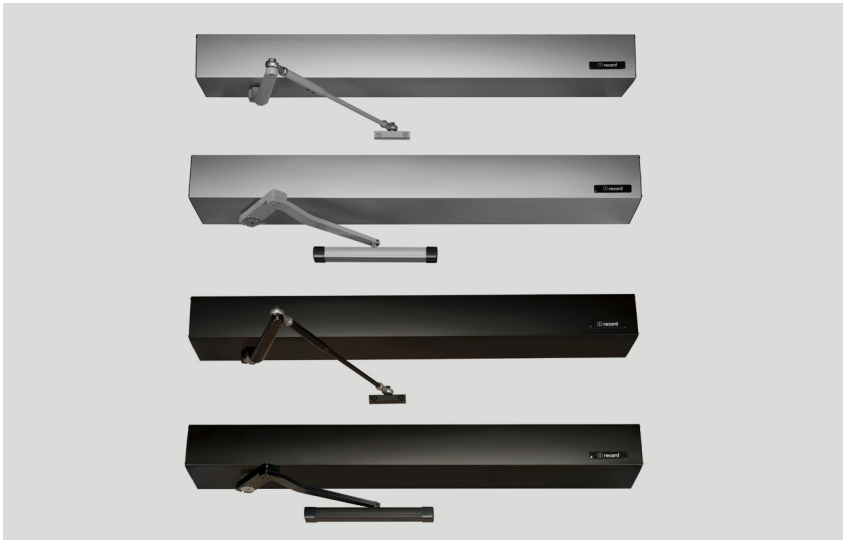

Low-profile Operator
for Moderate to
High Traffic

The Record HA8-LP combines power and reliability with a low-profile header for a more aesthetic appeal. It's perfect for moderate- to high-traffic locations where dependability outweighs extra features. The Record HA8-LP is also available in the EZ36 Kit, which comes with everything you need to automate a standard 36" door in one easy box.

Key Features

- ✕ Non-handed operator
- ✕ Opens easily during manual operation
- ✕ Quiet operation
- ✕ Permanent lubrication means maintenance free
- ✕ Easy installation (average install time is 1½ hours)
- ✕ UL325/UL10C certified
- ✕ Single or pair doors
- ✕ Available in push or pull, clear, dark bronze or black

Record HA8-SP

Standard-profile
Operator for
High Traffic

The Record HA8-SP is the classic low energy operator designed for heavy traffic. Electromechanical design and high-precision gears are ideal for sustained long-term use in either interior or exterior applications.

Key Features

- ✕ Handed operator
- ✕ Permanent lubrication means maintenance free
- ✕ Easy manual door operation
- ✕ UL325/UL10C certified
- ✕ Single, pair doors or double egress
- ✕ Available in push or pull, clear or dark bronze

Record HA9

Low-profile, Full-
featured Operator
for Moderate to
High Traffic

The Record HA9 is an extremely quiet low energy door operator with a low-profile header that comes jam-packed with standard features. Perfect for moderate- to high-traffic locations. The Record HA9 is also available in the EZ36 Kit, which comes with everything you need to automate a standard 36” door in one easy box.

Key Features

- ✕ Non-handed
- ✕ Easy manual door operation
- ✕ Power Assist
- ✕ Push & Go
- ✕ One-touch Teach Button
- ✕ Lock Kick
- ✕ Plug-n-play design for fast, trouble-free installation
- ✕ Stack Pressure Compensation
- ✕ Electric-strike Integration
- ✕ Sync cables are included with pair operators to ensure doors close simultaneously or in proper order
- ✕ UL325/UL10C certified
- ✕ Single or pair doors
- ✕ Available in push or pull, clear or dark bronze

Record SS8200

Low-profile,
Full-featured
Operator for
High Traffic

The Record SS8200 is a non-handed, low energy operator that can be used in almost any interior or exterior application. The Simplelynk communications display not only allows the installer to set up and program the door on-site, but also provides visual feedback of the door status.

Key Features

- ✗ Non-handed
- ✗ Single, pairs or double egress doors
- ✗ Doors that require up to 120° door swing
- ✗ Push-to-start applications eliminate the need for additional activation accessories and complex field wiring
- ✗ Latch assist ensures closing in areas with heavy stack conditions
- ✗ Simplelynk display standard
- ✗ Breakaway adapter to prevent operator or arm damage when abused
- ✗ Various arm options available
- ✗ Available in clear or dark bronze

Record EZ36 Kits

Low Energy Operator
and Activation
in One Box

The Record EZ36 Kit comes with everything needed to automate a 36" door in one box. The kit includes an HA8-LP or HA9 low-profile operator, two push plates and 900 MHz wireless transmitters & receiver. Simply choose your operator, push or pull arm and color, and you are ready to install.

Low Energy Operators

In Use

You may be pressed to find one of our operators around you in the world, and that's by design. With headers starting as thin as 1.875 inches, these products convert your manual door to an automatic entrance without grabbing anyone's attention. That way all of the focus remains on your design and space.

As a matter of fact, our automatic doors can be seen across industries, locations, and use-cases. So whether you're catching a flight to a new destination, interviewing at a new tech company, or just picking up some flowers at your local farmers' market, you just might see us there.
