Low Energy Operators

Easy Selection Guide

Your global partner for entrance solutions

Reliable, quiet low energy operators

The Record brand has been taking doors from manual to automatic in North America for over 20 years with its line of low energy swing door operators that are competitively priced, durable, low maintenance and simple to install.

All Record swing operators feature electromechanical design for simple, dependable operation, easy manual door opening, trouble-free installation and ADA compliance, and meet ANSI/BHMA 156.19 standards and are UL10C approved.

Swing operators are perfect for retrofit or new-build applications in moderate- to high-traffic locations. Whether you need a simple, dependable operator for a touchless restroom or an operator built to withstand the abuse of university students, Record has something to meet every application.
